PLACEMENT & TRAINING MANAGEMENT SYSTEM

Presented By,
TEAM 7

TEAM MEMBERS

1. Sahadiya Sidheeq
2. Ahsana K A
3. Anjitha Mohan E
4. Amana Parvin

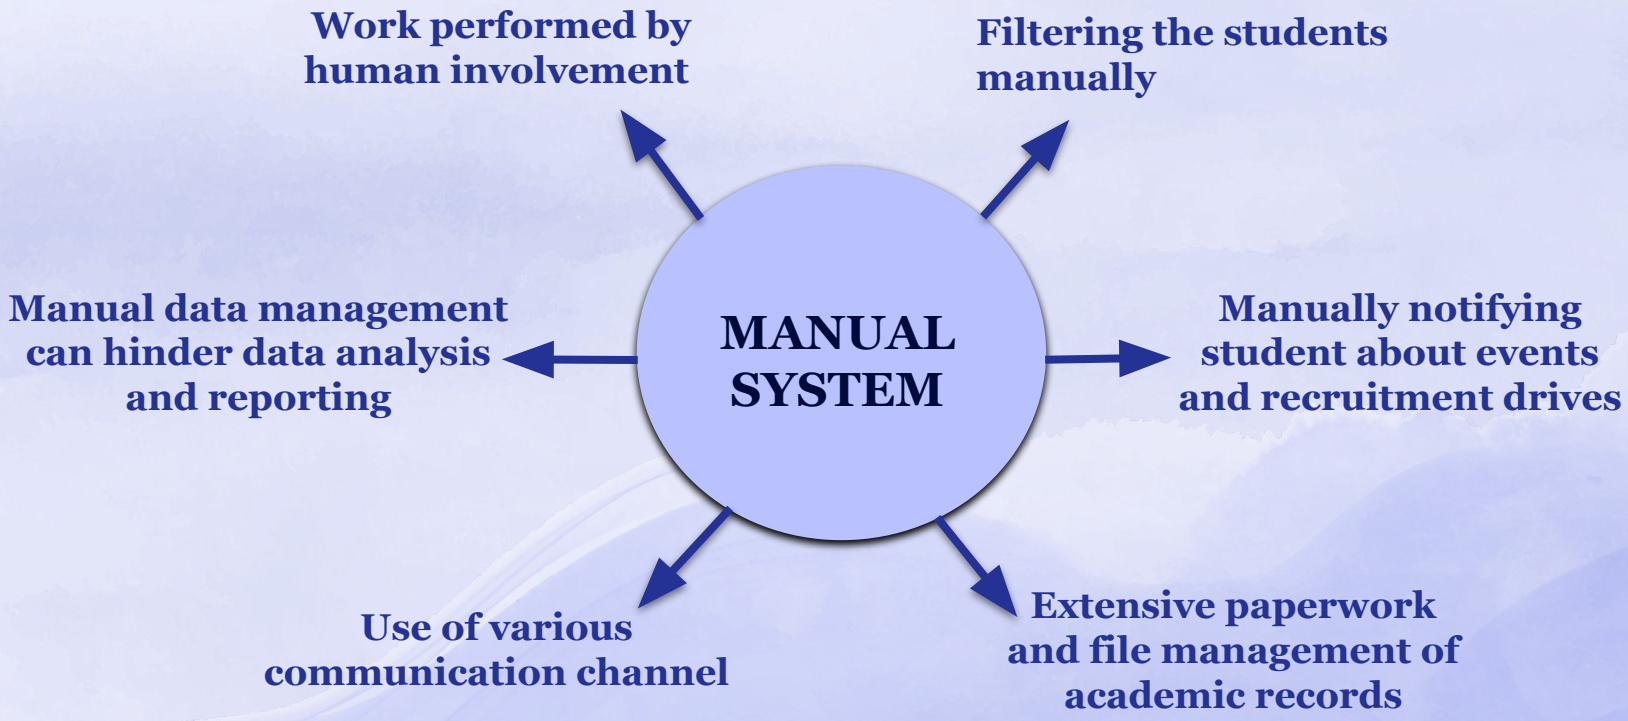

Guided by
Asst.Prof Riya Rajan

RELEVANCE

- A Placement and Training Management website is crucial for colleges
- Placements can bring a wide range of benefits and opportunities
- Supports student career development

- Efficient placement processes
- Saves time,reduces manual effort
- Ensures data accuracy
- Minimizes errors in student data management
- Provide accurate information to students and coordinators

EXISTING SYSTEM

DRAWBACK OF EXISTING SYSTEM

01
HUMAN ERROR

Prone to errors in data entry and documentation

02
INEFFICIENCY

Time consuming processes as it includes paper works.

03
LIMITED SCALABILITY

Problems escalate with growing number of students .

04
LACK OF TRANSPARENCY

Difficulty in tracking and analysing,limiting insights for strategic decision making

05
RESOURCE INTENSIVE

Require significant human resources and administrative effort

06
COMMUNICATION CHALLENGES

Inconsistent communication with students leading to missed opportunities and delays

PROPOSED SYSTEM

- PTMS streamlines and enhances the efficiency of our college's Placement and Training Cell.
- Acts as a centralized repository for student details, facilitating easy management.
- Features a notification system for timely communication about events and opportunities.
- Generates detailed reports on event participation, job drive attendance, and other statistics.
- Aims to optimize the workflow, fostering better coordination within the Placement and Training Cell.
- Boasts a user-friendly interface and robust functionalities for overall efficiency.
- Ultimate goal: Successfully connecting students with placement opportunities.

FEATURES OF PTMS

INTERACTIVE DASHBOARD FOR COORDINATORS

- ➔ Centralized hub for quick access to critical data
- ➔ User-friendly interface for efficient navigation

EVENT CALENDAR & SCHEDULING

- ➔ Integrated calendar for planning & scheduling events
- ➔ Avoid conflicts & ensure well -organised calendar

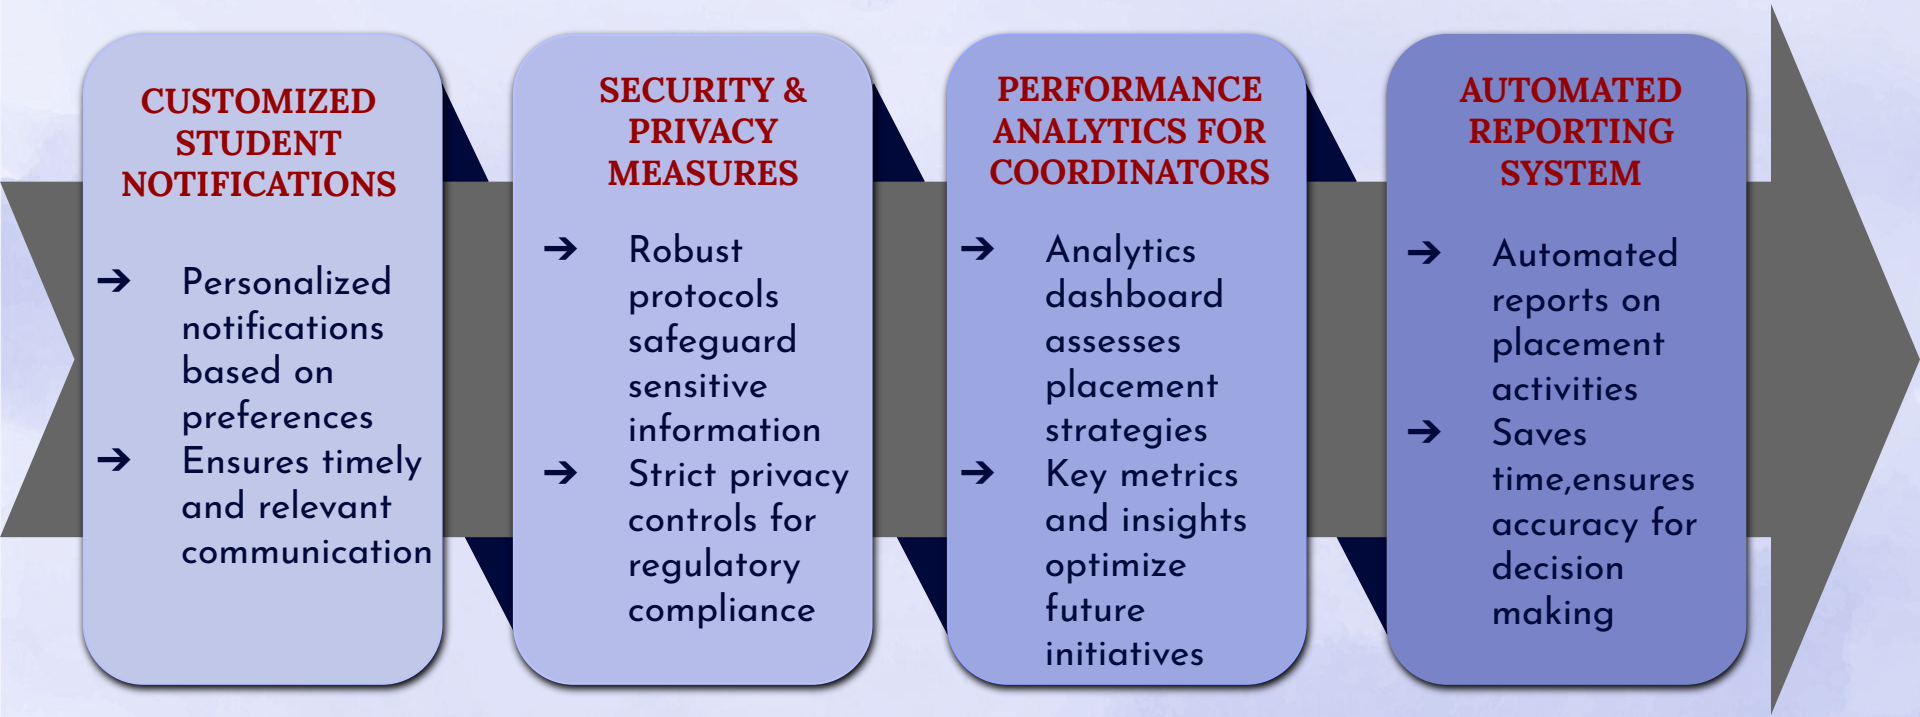

RESUME SEARCH & FILTERING

- ➔ Powerful search to find specific resumes
- ➔ Saves time with targeted access to relevant profiles

FEEDBACK & EVALUATION FORMS

- ➔ Students & recruiters provide event feedback
- ➔ Enhances continuous improvement & overall experience

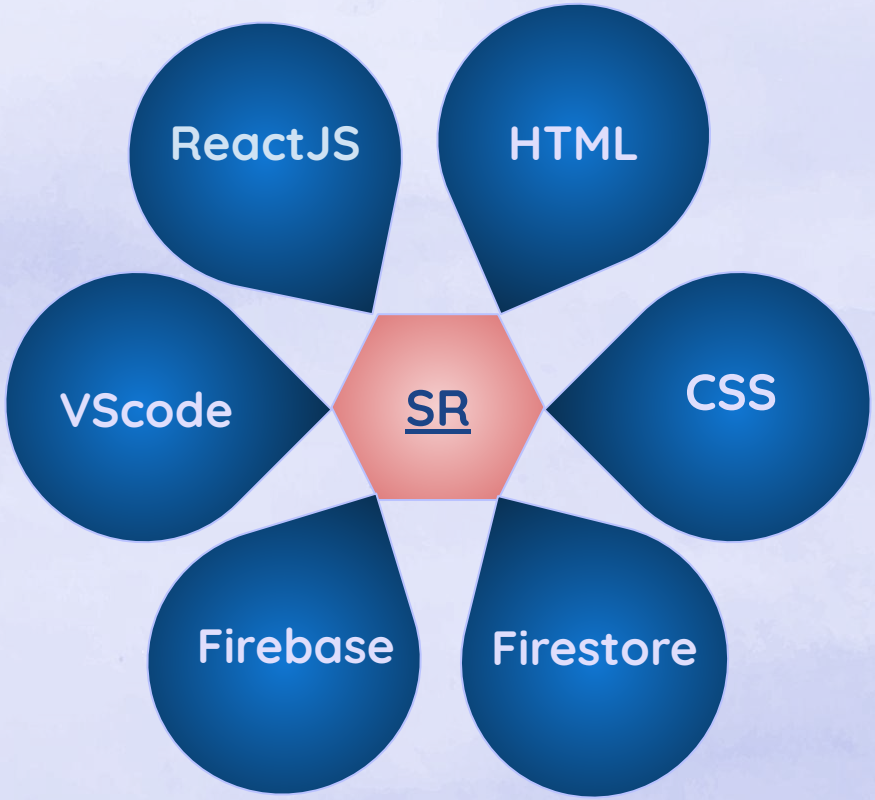

FEATURES OF PTMS

ADVANTAGES

1. **Administrative Ease**
   Simplifies tasks for staff
2. **Improved Engagement**
   Engages students with proactive notifications
3. **Efficiency**
   Reduces time and effort
4. **Data Insights**
   Enables analysis for informed decision-making
5. **Accuracy**
   Minimizes errors in data management
6. **Automation**
   Streamlines processes through automation
7. **Transparency**
   Provides clear visibility into placement processes and outcomes
8. **Scalability**
   Adaptable to accommodate increasing numbers of students and job opportunities
9. **Compliance**
   Ensures adherence to data privacy and security regulations
10. **Cost-Effectiveness**
    Reduces administrative costs associated with manual processes

SOFTWARE REQUIREMENTS

HARDWARE REQUIREMENTS

- PROCESSOR - intel i3
- HARD DISK - 1 TB
- RAM - 4 GB

PROJECT TIMELINE

WEEK 1

- Identify project requirements and set up the development environment.
- Begin building the basic frontend structure with ReactJS.
- Initiate firebase integration for user login.

WEEK 2

- Focus on frontend elements.
- Build student profiles.
- Enable resume uploads.
- Refine the user interface.

WEEK 3

- Continue frontend development.
- Create the event system.
- Integrate Firebase Firestore for event data.
- Enhance the UI with photo uploads.

WEEK 4

- Shift focus to the backend.
- Implement attendance tracking.
- Introduce a notification system using Firebase Cloud Messaging.

WEEK 5

- Ensure backend functionality aligns with frontend features.
- Dedicate time to testing and bug fixing for a final product.
- Finalize documentation and prepare for a smooth deployment.

Thankyou...!
